

Quick and simple welding

optrel p330-10

- Shade Level 3/10
- High Impact Helmet Shell
- Comfortable Headband
- Hard Hat can also be worn
- Including a Softbag
- Comes in Bulkpack of 10 units

Automatically better welding
swiss made 

optrel p330-10

The optrel p330-10 model is a high quality but cost-effective welding helmet featuring an automatic darkening filter and is a sincere alternative instead of passive welding helmets. The fast reacting display with its shade level 3/10 is powered by an internal battery which is being charged by solar cells and which stores the required energy. Equipped with an ergonomical particle- and scratch resistant helmet shell which can also be worn with a hard hat, as well as the well-proven optrel headband the entry model is still a real optrel product made in Switzerland.

Designation	Article no.	Unit/Box
p330, incl. Softbag black unpainted	1004.037	10 pcs
Darkening filter	5012.202	1 pce

Other features

Size of darkening filter/field of vision	108 x 50.8 x 53 mm/92 x 35 mm
Shade level	3/10
Eye protection	Maximum UV and IR protection with every shade level setting
Classification according to EN379	1/1/1/3
Classification according to EN175	Basic Use (EN 175)
Time taken to switch from light to dark	0,8 ms at room temperature 0,3 ms at 55 °C
Time taken to switch from dark to light	0,2 – 0,3 s
Energy supply	Solar cells, no battery change required
Working temperature	-10 °C to +70 °C
Total weight	450 g
Warranty	2 Years
Certificates	CE, DIN, ANSI, GOST-R, AS/NZS, complies with CSA Z94.3
